

Home Safety Evaluation

Improving Quality of Life by Eliminating Potential Hazards

We at Douglas County Visiting Nurses understand that your home is where you want to be. Our home safety evaluation program can help with that. Performed by a certified Senior Home Safety Specialist and Occupational Therapist, the evaluation extensively examines your home and makes recommendations so you can continue to remain independent in the comfort of your home. If you or a loved one is interested in remaining at home and having peace of mind concerning your safety, this service is perfect for you.

Who can benefit?

- Anyone who wants to stay independent at home as they age
- Anyone who has recently experienced a fall and is looking for a way to prevent future falls
- Anyone who is trying to create a safe home environment
- Anyone who has mobility challenges
- Anyone who is preparing their home for future medical challenges or addressing current challenges
- Anyone who is elderly and/or lives alone
- Anyone interested in adapting their home for multi-generational living

What will you gain?

- A safer home environment
- Home modifications that will improve personal energy conservation, reserving energy so you can lead a fuller life
- Confidence in your ability to be self-sufficient
- Reduced risk of falls and the associated effects
- Proven suggestions from an experienced professional
- Peace of mind as you age in your home
- The ability to maintain your independence
- The knowledge needed to take control of your circumstances
- With the one-time payment of \$150, you'll get a comprehensive 64 point evaluation and written report addressing areas of concern and recommendations for improvements
